**Comment Suggestion**

Kai was an incredible TA. He was very patient and always accessible to students. He spent a lot of time reviewing questions and going over content. I know I would not have been successful in this course if it wasn't for Kai's dedication to teaching. He is one of the most engaging TAs I've had. I would highly recommend him to TA this or another stats course. He was amazing.

Kai was a phenomenal TA!! He explained the concepts clearly and concisely. I passed the class and understood quantitative methods because of him. He was accessible outside of class and took time to answer questions via email, office hours, and zoom. He was able to make the abstract lessons taught in class understandable in a more digestible way. He taught concepts well which made lessons, homework, and quizzes do- able.

Kai was a great TA. He was very helpful answering questions and was easily accessible. Thanks for a great semester, Kai. Hope you have a nice winter break!

Phenomenal

Kai went above and beyond for the students. He was consistently available outside of class and spent a significant amount of time helping students. I wish he was my TA for the next stats course. Give him a raise!

Kai is a great TA. He is very approachable and patience. His lecture in recitation helped me consolidate many concepts that I did not fully understand in lectures.

**Comment Suggestion**

Kai Feng was a fantastic professor. I would highly recommend any class with him. He had great communication skills (so quick to respond on Ed!), was eager to help, and was very knowledgeable every time question was posed.

Really stimulated my interest in coding and data analytics!
